Preliminaries of Web Technologies

Assignment Report – Group 10

_____

- ## Group Participants

224155G – R.D.S.A.Rajapaksha

224016H – A.M.S.L.Attanayake

224172F – D.G.M.Satharasinghe
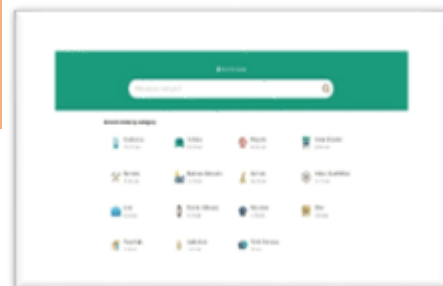

224049K – T.S.Edirisinghe

224125P – S.K.T.R.Mendis

224047D – E.A.D.M.Edirisinghe

Observations

1. R.D.S.A Rajapaksha – Ikman.lk

- Page seems to lack responsiveness
- Navigation links doesn't function as only single page is designed
- Some buttons lack properties because of broken CSS elements

2. A.M.S.L.Attanayake – CambodiaTravel

- "Contact Us" link is not responsive due to a broken link
- The button that scrolls to the beginning of the page which is present in the original website seems to be missing
- Cards at the bottom of the page are not linked to their individual pages

3. D.G.M.Satharasinghe – Asiri Website

- Some related webpages are not linked in the footer section
- Same issue is present in certain links of the header as well
- Some animations from the original website are missing.

4. T.S.Edirisinghe – LiveCollege

- Top navigation panel is not responsive
- Navigation panel could be stylized better using CSS to make it stand out from other components
- "Register" button could be aligned better to make it more visually appealing

5. S.K.T.R.Mendis – JMLA Website

- Overall lack of CSS styling
- Lack of JavaScript
- The page could be more responsive to improve the overall user experience.
- The page appears to be lacking content and would benefit from additional elements to improve its overall appeal.

6. E.A.D.M.Edirisinghe– University of Moratuwa Website

- Overall lack of CSS styling
- Some elements could be aligned better to make the site visually appealing
- Lack of JavaScript
- An image on the front page is not linked properly
- Some Icons could be enlarged for better visibility or accessibility.
